

# Measuring Your Ring Size.

Finding out the ring size of your beloved or for somebody whom you wish to buy a ring for is a task that is stressful and often over whelming when you haven't a clue which way to go .

The most basic way to find out what your ring size or the ring size of your lover is to print the ring size chart and measure a ring against this.

## • Measure Your Current Ring

- o Pick up a ring that fits you right for the intended finger.
- o Usually wedding or engagement ring is worn on the left hand ring finger.
- o Place the ring accurately on the below chart over the circle that fits the ring right.
- o You will find out your ring size once the ring
- o Matching the inside edge of the ring to the circle nearest in size.

This measurement refers to the inside diameter of the ring.

- o If the ring falls between two sizes, order the larger size.
- o Measure your finger 3-4 times to make sure you have no problem in the reading, accuracy is key.

- Please ensure you have an accurate reading to avoid any misinterpretations which could cause a mistake in the making and designing of the ring.
- While buying an eternity ring or band, please be sure of the ring size, since if you measure an incorrect size the entire ring has to be broken down where there is a loss of gold and diamonds and has to be remade using new diamonds.
